

LATEST HEP C TREATMENTS

TALK TO YOUR DOCTOR, NURSE OR CLINIC ABOUT THESE CURES FOR HEPATITIS C

[▲] MOST PEOPLE HAVE LITTLE TO NO SIDE-EFFECTS. *FOR A SMALL NUMBER OF PEOPLE, TREATMENT MAY LAST LONGER
THE 5% OF PEOPLE WHO ARE NOT CURED WITH THE ABOVE ARE TYPICALLY OFFERED ANOTHER TREATMENT, VOSEVI.

TO MAKE SURE YOU ARE CURED, YOU NEED TO GET A PCR BLOOD TEST AT LEAST 12 WEEKS AFTER YOU FINISH YOUR TREATMENT.

IF YOU HAVE EXISTING SERIOUS LIVER DAMAGE LIKE CIRRHOSIS IT IS IMPORTANT TO HAVE ONGOING CARE AND MONITORING WITH A SPECIALIST AFTER COMPLETING TREATMENT
