

Hepatitis Queensland is a values-driven and innovative community organisation that strives to improve the lives of Queenslanders affected by viral hepatitis and liver disease via education, collaboration, and person-centred care initiatives.

VALUES

Equity

We strive to improve access to viral hepatitis related health care for all.

Respect

We value diversity and commit to providing co-designed services that are respectful, safe and culturally sensitive.

Connection

We believe in the importance of lived-experience, the power of genuine partnerships, and shared decision making to enhance impact and create meaningful change.

Integrity

We hold ourselves to the highest standards and are accountable for our decisions.

Innovation

We are committed to continuous learning and improvement and will evolve to meet the changing needs of the community.

STRATEGIC PLAN

2024-2026

STRATEGIC PLAN

2024-2026

VISION

To see an end to viral hepatitis

MISSION

To enable ALL Queenslanders to live free from the impact of viral hepatitis and liver disease

PILLAR 1

Leadership in the Elimination of Viral Hepatitis

1

Raise awareness of viral hepatitis and liver disease via proactive health promotion.

2

Upscale testing, treatment & management.

3

Explore new research partnerships to enhance outcomes.

4

Advocate for equity in the provision of care across the QLD sector.

5

Lead QLD hepatitis related sector/community networks.

PILLAR 2

Person-Centred Care

1

Co-design services that are accessible and culturally appropriate for priority populations.

2

Provide access to best practice health care for priority populations and empower individual decision making.

3

Foster critical connections through the meaningful involvement of people with lived experience.

4

Ensure services adopt a whole-of-person approach and make related referrals to maximise individual outcomes.

PILLAR 3

Educate & Advocate

1

Improve understanding of viral hepatitis via tailored community educational programs.

2

Enhance health sector workforce capability via delivery of educational programs.

3

Proactively promote viral hepatitis prevention strategies to support liver health.

4

Develop a viral hepatitis related lived experience network.

5

Proactively advocate for:

- improved viral hepatitis health equity outcomes for First Nations communities and priority populations.
- the respectful and dignified care of people with lived experience and the eradication of stigma and discrimination.
- improved harm minimisation strategies within Corrections.

PILLAR 4

Maximise Impact

1

Forge collaborative partnerships to:

- improve existing models of care, aligned to community need.
- trial innovative community-based strategies that improve access to quality viral hepatitis related health care for priority populations.

2

Develop strategies to increase impact/reach (particularly regional).

3

Address related emerging liver health challenges.

4

Advocate for increased sector funding to lift service provision, aligned to viral hepatitis elimination goals.

PILLAR 5

A Strong & Sustainable Future

1

Seek diversified funding & collaboration opportunities.

2

Maintain Quality Accreditation.

3

Demonstrate integrity via sound governance practices.

4

Foster a positive workforce culture with a high calibre & engaged team.

5

Nurture sector partnerships via positive and meaningful engagement.

6

Ensure robust service data capture to drive evidence-based decision-making.

7

Nurture an ongoing culture of continuous improvement.
